## PROFESSIONAL EXPERIENCE

---

### **Decagon, Lagos, Nigeria** **Software Engineer**

May, 2022 – Present

- Developed scalable web-based user interfaces and components using ReactJs, NodeJs, JavaScript, and TypeScript.
- Part of a team of 5 developers that developed a fintech App where a user can sell their surplus airtime into cash.
- Outlined high-volume, high-scale web front ends for assets requiring responsive designs.
- Collaborated with a team of Engineers, developing, architecting, and implementing backend APIs for transportation systems, health, and fintech
- Implemented continuous delivery using 100% declarative infrastructure and automated deployment.
- Assisted in developing server-based NodeJs software by providing inputs and insights, acquiring a 15% increase in the quality of overall work.
- Part of a team of 5 developers that developed a Logistic app that connects users to dispatch riders available to move goods from one location to another.
- Utilized Jira and GitHub to create and maintain 99.99% error-free code.
- Ensured the quality of product through code reviews and high level of unit and functional test coverage.
- Handled database management system with SQL like mySQL, Postgres ,and NoSQL database like MongoDB

### **M15 Innovation, Lagos, Nigeria** **Software Engineer**

January 2020 – May 2022

- Consistently applied best practices for writing clean, secure, readable, and scalable code.
- Designed and built Restful APIs to maintain operations continuity and productivity.
- Part of a team of 4 developers that built a website that recycles waste, with javascript and bootstrap.
- Attends daily scrum meetings, and keeps up-to-date on best practices for javascript frameworks and techniques.
- Validated client interface requirements and assessed impact of needs on available systems.
- Assisted in developing server-based NodeJs software by providing inputs and insights, acquiring a 15% increase in the quality of overall work.
- Attends daily scrum meetings, and keeps up-to-date on best practices for javascript frameworks and techniques.
- Analyzed and dealt with a significant process bottleneck that boosted coding efficiency by 35% when resolved.
- Exposure to agile methodologies.

## EDUCATION

**Federal University of Agriculture, Makurdi**  
B.Eng Mechanical Engineering

March, 2018

## SKILLS

- |                                       |                     |              |             |
|---------------------------------------|---------------------|--------------|-------------|
| • version control with Git and Github | • React             | • Kuberne    | • GraphQL   |
| • Project Management                  | • Redux             | • HTML/ CSS  | • CI/CD     |
| • Leadership Skills                   | • MySQL             | • JavaScript | • Bootstrap |
| • REST API                            | • Postgres          | • Postman    | • Unit Test |
| • NodeJs                              | • MongoDB           | • Jira       | • SASS      |
| • TypeScript                          | • Express Framework | • Docker     |             |
|                                       | • Agile             | • Swagger    |             |

## PROJECTS

### • **A FINTECH APP:**

Is an Airtime to cash application that permits users to sell their surplus airtime to cash. It features a wallet which holds the funds users receive in return for sold airtime, and allows for withdrawal of those funds into users designated account.

**Technologies Used :** Express, NodeJs, TypeScript, JavaScript, React, Sequelize ORM, Postgres, ReactJs, Netlify, Swagger, Docker, Netlify and Heroku..

[Link](#)

### • **DISPATCH BUDDY:**

Dispatch Buddy is an online delivery service solution that connects users to dispatch riders available to move goods from one location to another.

**Technologies Used :** React, JavaScript, TypeScript, NodeJs, Express Docker, Swagger, and Postgres.

[Link](#)

### • **HOTEL APPLICATION:**

An online web application that includes various hotels booking prices and other information. It includes all basic CRUD operations as well secure authorization and authentication of users and web pages.

**Technologies Used:** TypeScript, NodeJs, Express, Sequelize ORM, SQLite, Bootstrap, EJS, Docker, Railway.

[Link](#)

### • **PHONEBOOK APP:**

A Phonebook app is an online application that grants users to register and save their contacts on the web..

**Technologies Used:** JavaScript, React, NodeJs, Express, MongoDB, Heroku.
